

Privacy Statement for Irvine Public Library App

This Privacy Policy applies to the mobile application, "Irvine Public Library," developed by SirsiDynix in collaboration with the City of Irvine ("we", "us", or "our").

This app is provided by and made public by the City of Irvine and is operated under its policies. By using this app, you agree to be bound by these terms and conditions.

Data Collection Personal Information

The app does not collect, store, or share any personal information. Users are not required to provide personal details such as name, email address, or contact information to use the app. However, email addresses may be required to access certain third-party digital content.

Usage Data

The app does collect non-identifiable device information to provide app usage statistics. This data includes, but is not limited to, device type, operating system, and app usage patterns. This information is used to improve the app and enhance the user experience. All data is aggregated and anonymized to ensure it cannot be used to identify any individual user.

Location Data

The app may optionally use both precise location data (such as GPS) and approximate location data (like Wi-Fi or cell tower information) to enhance certain features and functionalities. Users can opt out of location services through their device settings at any time to maintain their desired level of privacy and control over the app's functionality.

Data Storage

Any location data used for app functionality is not stored. Non-identifiable device information used for app usage statistics is aggregated and anonymized.

Data Sharing

The app does not share any personal information with third parties. This includes location data, which is neither collected nor shared. Aggregated and anonymized usage statistics are used solely for internal purposes to improve the app.

Security

The app does not collect or store user data, and we are committed to maintaining a secure app environment. Various security measures are implemented to ensure the safety of the app.

Account Creation and Deletion of User Data

In the event that the City of Irvine enables the creation of a library patron account in the Irvine Public Library app, the application will provide an in-app URL so that users can request deletion of their user data. The Irvine Public Library app does not require users to create an account for basic functionality. However, certain features may require the provision of additional information or account creation for increased functionality. If account creation is enabled in the Irvine Public Library app, users will have the right to request deletion of their personal data directly through the application's interface by visiting the account deletion URL located in-app.

Changes to This Privacy Statement

We may update this Privacy Statement from time to time. Any changes will be posted on this page with an updated revision date. Please review this Privacy Statement periodically for any updates.

Contact Us

If you have any questions or concerns about this Privacy Statement or our data practices, please contact the Irvine Public Library using any of the following:

- Contact Us: irvinepubliclibrary.org
- Email: irvinepubliclibrary@cityofirvine.org
- Phone: 949-724-4444

Effective Date

This Privacy Policy is effective as of 8/17/2026.
