

# Your Tenants' Food Scraps Belong in the Green Bin

California's SB 1383 requires all properties to recycle organic material. Help your tenants understand what goes in the green bin.

- Food scraps (meat, bones, dairy, fruit and vegetable scraps): green bin.
- Food-soiled paper (napkins, paper towels, uncoated cardboard): green bin.
- Yard trimmings, grass, leaves, and small branches: green bin.
- Compostable bags are accepted.
