

New Checkout Bag Rules Apply to Your Retail Tenants

California's SB 1053 prohibits retail stores from providing single-use plastic bags at checkout. Share this with your tenants to help them stay in compliance.

- Retail tenants may no longer provide plastic carryout bags at checkout.
- Tenants may offer recycled paper bags for a minimum \$0.10 charge.
- Bags for produce, meat, and prescriptions are still permitted.
- This applies to any storefront where goods are sold and bags are provided.
